NMDC Group Forges Strategic Partnerships at ADIPEC 2026 Across Energy, Marine, and Subsea Infrastructure

- *NMDC Group signed strategic MoUs spanning digital transformation and advanced marine surveying.*
- *The Group showcased its integrated capabilities across energy EPC, marine dredging, infrastructure, logistics, and oilfield services.*

Abu Dhabi, UAE; 6 November 2026 – NMDC Group (ADX: NMDC) concluded its participation at ADIPEC 2026, held from 2 to 5 November at the Abu Dhabi National Exhibition Centre (ADNEC), showcasing its operational and technological advancements as a global leader in integrated marine, energy, construction, logistics, and engineering solutions.

As a key partner at ADIPEC 2026, NMDC Group demonstrated how its end-to-end execution model accelerates industrial execution and strengthens energy security. The Group also announced the signing of several strategic Memoranda of Understanding (MoUs) designed to drive innovation and collaboration across the energy and marine sectors.

NMDC Group signed a long-term strategic cooperation framework with the China Chamber of Commerce for the Petroleum Industry (CCCPI), built on complementary strengths to unlock bilateral supply chain, fabrication, and energy infrastructure opportunities.

In the marine sector, NMDC Dredging & Marine, Teledyne Marine, and SITECH Gulf UAE established a tripartite strategic cooperation in advanced marine survey technology, subsea equipment support, and hydrographic innovation.

Meanwhile, NMDC Infra and Tekmar have established a strategic cooperation framework to localize and develop subsea asset protection and stabilization solutions in the UAE, focusing on the local manufacturing of concrete mattresses and subsea sleepers, technology transfer, and strengthening the UAE's marine engineering capabilities.

On the technological front, NMDC Energy entered into a strategic MoU with e& UAE to focus on digital transformation and the deployment of smart energy and industrial connectivity solutions across NMDC Energy's operations. It also partnered with Borouge International to explore the deployment of advanced Borouge pipeline coating solutions for major regional energy infrastructure projects.

These partnerships underscore NMDC Group's commitment to innovation, technology advancement, and strengthening its position as a trusted partner for complex, high-scope projects across the region and beyond.

Dr. Yasser Zaghloul, Group Chief Executive Officer of NMDC Group, said:

"ADIPEC 2026 came at a time when resilience has moved to the top of every boardroom agenda, and our message throughout the week was clear: resilience is built long before it is needed. In our fiftieth year, we demonstrated how an integrated model, our own fleet and yards, and practical AI working alongside experienced engineers give our clients greater certainty across complex projects. The partnerships signed this week will help localize critical capabilities in the UAE and strengthen our subsea, survey, and digital expertise. For us, growth has never been about size alone; it is about the capability we build and the value we create together, proving that our collective resilience leaves us ready to seize new growth opportunities in the new normal."

Throughout the four-day exhibition and conference, NMDC Group showcased its EPC and modular fabrication assets, expanding marine fleet and autonomous subsea technologies, as well as its in-house AI-enabled solutions designed to enhance safety, efficiency, and project delivery.

About NMDC Group

Headquartered in Abu Dhabi, UAE, NMDC Group is a homegrown global leader with 50 years of experience, providing cutting-edge engineering, procurement, and construction (EPC) solutions for onshore and offshore projects, along with state-of-the-art marine dredging and construction capabilities. With projects executed across the MENA region and Southeast Asia, NMDC Group offers its clients high-quality turnkey solutions, underpinned by a commitment to sustainability and international standards.

The Group operates through various business units: NMDC Dredging & Marine, NMDC Energy, NMDC Infra, and NMDC LTS.
