

For fast, flexible and secure access to integrated services

Sharjah Islamic Bank launches its new digital banking services for corporates

Sharjah Islamic Bank (SIB) announced the launch of its corporate digital banking services, providing an integrated banking experience characterized by speed, flexibility and security.

An integrated digital banking experience

Rahma Mohammed Al Shamsi, Head of Corporate Banking Group, Sharjah Islamic Bank, confirmed that the launch is part of the bank's efforts to enable companies to obtain an integrated digital banking experience, allowing them to benefit better and more easily in accessing services, without the need to visit branches, such as completing transactions electronically with multi-step authentication and in the process enrich the banking experience of corporate users and enable them to conduct transactions easily and securely.

Al Shamsi pointed out that the exceptional circumstances imposed by the Covid-19 pandemic have created new challenges in corporate banking, especially for small- and medium- enterprises, to enable them to access digital banking services easily and smoothly, in order to provide facilities that enable them to continue their business and transactions remotely, as well as to obtain flexible banking services.

By launching the new digital services for the corporate sector, the bank has succeeded in expanding its range of services in order to provide an integrated and comprehensive digital experience for the bank's current and future customers via the Internet and mobile phone.

Around the clock, from anywhere

Waleed Al Amoudi, Head of Digital Banking at Sharjah Islamic Bank, said that corporate digital banking includes many services that can be accessed around the clock and from anywhere, such as current accounts, term deposits, trade finance, documentary

credits and guarantees as well as remittances, bill payments, commercial license update, salary transfer, approvals, cheque book requests, commercial facilities and other requests.

Al Amoudi added that Sharjah Islamic Bank is keen to provide the highest levels of security in its modern digital banking services based on biometrics technology that allows the possibility of identifying the user through fingerprints or facial recognition. The bank has also developed an interactive model for customers to ensure the provision of a comprehensive and integrated digital service to customers

The new corporate digital banking services at Sharjah Islamic Bank can be accessed through the bank's website at www.sib.ae, or by downloading the new application for corporate banking services, SIB Business, which is available on "Apple Store", "Galaxy Store", "App Gallery" and "Google Play".

Sharjah Islamic Bank continuously strives to provide all electronic services and facilities, which are designed to meet the requirements of the retail and corporate customers during the current period. The bank seeks to support the nation's efforts to contain the Coronavirus under the slogan " We Commit Until We Succeed," and aligns with the UAE's vision 2021, aimed at achieving a competitive and technology based advanced knowledge economy through innovation, along with the bank's strategy to keep pace with the latest global digital banking technologies.
