3. MAIN OBJECTS AND BUSINESS OF THE GROUP

The Group has established itself as a global leader in the development, operation and management of crypto data centers. It has also expanded its global footprint across UAE, Oman, Canada, USA and other regions through various business segments including hosting, trading, retail, cloud-mining and the establishment of the UAE's first fully regulated digital asset exchange.

It is also the exclusive distributor of industry leading mining equipment MicroBT across various geographies.

The competitive advantage and success of the Group is attributed to the visionary leadership of its founders and stakeholders, first-mover advantage in the digital mining space, the ability to secure competitively priced utilities at quasi – governmental levels, access to equipment and access to capital which has been utilized in the most cost effective manner, resulting in exemplary returns and revenue.

The Company's IPO is one of the first crypto asset mining listing to take place in the Middle East region and will further enhance the growth and vision of the Company to pave the way to a more decentralized future for all.

The Company, through its Subsidiaries and affiliates located both locally and internationally operate various sectors including Data Mining, Data Center Solutions, Hosting of Crypto-currency Mining Equipment, Self-Mining, Trading of High Performance Computing Equipment, and Regulated Crypto-currency marketplace and Exchange.

Data Mining and Data Center Solutions

In 2020, the Company expanded from mining into data centers. With growing mining operations, the Group tapped industry leaders to develop large-scale data centers globally paving its way into the industry.

The Group provides development, operations and maintenance of specialized state of the art data centers, and operation of data mining equipment (hosting services) with high performance computing power and accumulation of digital assets. Phoenix has a dedicated team of experts spanning design, construction, and operation of data centers, with teams in the UAE and USA.

Phoenix carries out the operations and management of the data center facilities in Citadel Project in Abu Dhabi, which is the region's largest crypto-mining facility spanning over a total of circa 100,000 sqm, equipped with latest top of the range equipment (custom-built for the desert climate).

Hosting of Crypto-currency Mining Equipment and Self-Mining

The Group is a leading global hosting provider offering services, including colocation for mining. Clients receive secure rack space, power, cooling, maintenance, warranty, and repair services, backed by strict SLAs and 24/7 monitoring. A dedicated team enhances and elevates the customer experience.

Exclusive Distribution Rights

Phoenix Computer Equipment Trading (a wholly owned Phoenix subsidiary) proudly holds the distribution rights for industry leading technology hardware brands and accessories (Bitcoin mining equipment and crypto-wallets) with WhatsMiner (the leading brand and pioneer of mining hardware and design developed by MicroBT), with exclusivity rights across the UAE, GCC countries, Egypt, Turkey and Kenya, which gives the Group a competitive advantage in this space.

Regulated Crypto-currency marketplace and Exchange

M2 (a Phoenix affiliate and founded by Phoenix leadership) is an Abu Dhabi-based crypto

exchange that aims to revolutionise the financial landscape through exceptional returns in digital assets. With a focus on security, transparency, and global licenses, including ADGM and the Bahamas. M2 serves retail and institutional clients worldwide. Their offerings encompass trading, earning, crypto-based finance, virtual asset loans, utility tokens, stablecoins, launchpads, and M2 Ventures. M2 targets VIP individuals and assertive investors for diversifying portfolios, along with family offices and wealth managers seeking crypto yield and structured products.

International Footprint

The Group is actively expanding its data centres worldwide. In the US and Canada alone, it currently operates approximately 100MW, and is looking to add an additional 20 MW in Canada. Additionally, the Group has secured power agreements in the USA, launching 50MW and 45MW facilities, in the near future.

In 2023, the Group partnered with Green Data City in Oman for a 150MW facility. Additionally, Phoenix is looking to securing opportunities across Middle East, which will come to fruition in the near future.

Trading

Phoenix Group's journey in the crypto mining industry evolved as it transitioned into a prominent supplier of mining equipment, serving both individuals and corporations. By 2021, sales trading reached \$161 million, and in 2022, it surged to \$715 million due to exclusive agreements with leading manufacturers including Bitmain and MicroBT. Despite market fluctuations, Phoenix thrived, culminating in a record-breaking investment in a 250MW data mining Abu Dhabi. Despite crypto winter, sales remained robust in 2023, reflecting Phoenix's agility and commitment to market expansion. The company also solidified its position by partnering with leading hard wallet vendors, for sale of retail digital hardware such as cold digital wallets via its showrooms in UAE and other regions, alongside its retail and trading activities of mining equipment. Phoenix's future prospects in equipment sales and trading remain promising, with a focus on strategic collaborations and distributor agreements.

Cloud mining (digitalmining.com)

In 2023, Phoenix expanded its product range, offering a more accessible investment model through digitalmining.com. Clients purchase machine hash rate for a specified duration. A full website launch and marketing campaigns are planned to establish Phoenix as a cloud mining leader in the near future.

He holds a Master's degree in Electronics & Communication from Université Pierre et Marie Curie in France and a Bachelors in Aeronautics from Saint Louis University in the United States of America.

He is also the holder of an Accelerated Executive Development Diploma from IMD Business School in Switzerland.

Ms. Elham Al Qasim

Board Member

Elham Al Qasim is a senior executive and investment professional based in the UAE. In her executive capacity Elham has served as CEO of Digital14, leading over 1,000 staff in delivering cybersecurity and digital solutions. Elham also served as CEO of Abu Dhabi Investment Office (ADIO) and Executive Director of the Ghadan 21 programme at the Abu Dhabi Executive Office where she led the strategic planning for the government's three-year, AED 50 billion investment programme aimed at accelerating Abu Dhabi's economy.

Prior to this, Elham was a Director of Mubadala Investment Company, focusing on Mubadala's Technology and Industry portfolio. Her responsibilities included building investment/entry strategy, business development, value creation, post-acquisition asset management, and monetization. During this time, Elham also served on the executive leadership team of Emirates Global Aluminium and delivered a two-year post-merger integration program.

Elham's international career also includes JPMorgan Investment Bank, where she was part of the Global Diversified Industrials Team based in London, handling M&A transactions in chemicals, metals and mining, and infrastructure.

As a non-executive Director, Elham has served on a number of international and national public and private boards including Global Foundries, IHC, and Khalifa Fund. She is currently a Board Member of Amanat Holdings and CMRC, and Vice Chairperson of Apex Holdings and Abu Dhabi University.

Elham holds an MSc from the School of Social Policy at the London School of Economics, and a Bachelor of Business from the American University in Dubai. In April 2010, Elham became the first Arab woman to ski to the North Pole.

Mr. Fady M.Y Dahalan

Board Member

Mr. Dahalan serves as the CEO of Citadel International Holdings (CIH), a prominent investment management firm headquartered in Abu Dhabi, UAE. CIH oversees a diverse portfolio that encompasses Capital Markets, Real Estate, Pharmaceuticals, Manufacturing & Retail, and Blockchain Technology, with investments strategically positioned across Europe, the Middle East, and Africa.

In addition to his role at CIH, Mr. Dahalan is the Managing Partner at CI Venture Capital (CI VC) in Abu Dhabi, a forward-thinking venture capital firm regulated by ADGM. With a keen eye for innovation, CI VC is dedicated to investing in and partnering with the region's most promising startups, particularly those breaking ground in F&B, FinTech, and Super App development.

Mr. Dahalan's influence in the digital currency realm is evident through his role as a Board Member at M2, a cutting-edge Digital Currency and Exchange Platform. His expertise is further showcased by his board memberships across a myriad of sectors, from hospitality and real estate to financial services, food processing, petconomy, construction, media, pharmaceuticals, and blockchain technology. Notably, he holds an observer seat in Multiply Group PJSC, a company publicly traded on the Abu Dhabi Stock Market, and plays a pivotal role in the startups incubated by CI Venture Capital, either as an observer or director.

Prior to his current endeavors, Mr. Dahalan was associated with AMIRAL Holdings and IHC. He earned his bachelor's degree in business management from Southern Illinois University – Illinois, USA. Demonstrating visionary leadership and profound strategic expertise throughout his career, Mr. Dahalan remains at the forefront of regional investment and innovation.

Mr. Seyedmohammad Alizadehfard

Board Member

Seyedmohammad Alizadehfard, Co-Founder and Group CEO at the Phoenix Group, is a visionary leader with unparalleled business acumen and expertise within the blockchain ecosystem. Mr. Alizadehfard's contribution to Phoenix is invaluable, and his vision and perseverance has established Phoenix as a regional and global player in crypto and blockchain industry.

Mr. Alizadehfard is also founder of Cypher Capital, a Dubai-based venture firm investing in crypto, blockchain and other digital asset projects. It is widely regarded as a pre-eminent Web3 focused Venture Capital firm in the MENA region and notably recognised globally with its highly successful track record of investments.

Mr. Alizadehfard believes in working with visionary innovators, outstanding talent and other venture capital partners to create a holistic blockchain community, whereby the ecosystem can benefit and grow for a more decentralized future for all.

Mr. Munaf Ali

Board Member

Munaf Ali, Co-Founder and Group Managing Director of the Phoenix Group, is a visionary Group Managing Director, entrepreneur, and innovator with over 20 years Capital Markets experience (including previous executive banking roles in Citigroup across London and UAE).

Munaf has founded and built billion-dollar corporations globally across sectors including Hospitality, Leisure and Blockchain. He is a seasoned real estate developer and has delivered mega development projects of significant value. He previously co-founded and was CEO for Range Developments, a luxury hospitality developer that developed and delivered luxury branded resort hotels in the Eastern Caribbean.

As the co-founder of Phoenix, Munaf's contribution towards Phoenix has been invaluable - he has established Phoenix as one of the leading players in the Blockchain and Cryptocurrency arena with mining facilities spanning across UAE, US, Canada, Russia, Europe and the Middle East. Phoenix is also developing one of the largest mining facilities in the world, in the UAE with prominent strategic partners and carries exclusive distribution rights for numerous technology hardware manufacturers (including WhatsMiner / MicroBT) across Middle East, Africa and Turkey, which solidifies its position as a global player.

9. EXECUTIVE MANAGEMENT
