Review report on condensed consolidated interim financial information to the Board of Directors of The National Bank of Ras Al-Khaimah (P.S.C.)

Introduction

We have reviewed the accompanying condensed consolidated interim statement of financial position of The National Bank of Ras Al-Khaimah (P.S.C.) ("the Bank") and its subsidiaries (together referred to as the "Group") as at 30 June 2024 and the related condensed consolidated interim statements of profit or loss and comprehensive income for the three-month and six-month periods then ended and the condensed consolidated interim statements changes in equity and cash flows for the six-month period then ended and other explanatory notes. The Directors are responsible for the preparation and presentation of this condensed consolidated interim financial information in accordance with International Accounting Standard 34 – Interim Financial Reporting ("IAS 34"). Our responsibility is to express a conclusion on this condensed consolidated interim financial information based on our review.

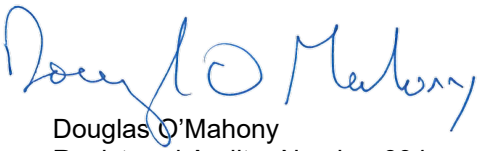

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of interim financial information performed by the independent auditor of the entity". A review of condensed consolidated interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial information is not prepared, in all material respects, in accordance with International Accounting Standard 34 "Interim Financial Reporting".

The National Bank of Ras Al-Khaimah (P.S.C.)

Notes to the condensed consolidated interim financial information for the period from 1 January 2024 to 30 June 2024

1 Incorporation and Principal Activities

The National Bank of Ras Al-Khaimah (P.S.C.) (the "Bank") is a public shareholding company incorporated in the Emirate of Ras Al-Khaimah in the United Arab Emirates ("UAE"). The head office of the Bank is located at the National Bank of Ras Al-Khaimah building, Al Rifa area, Exit No. 129, Sheikh Mohammed Bin Zayed Road, Ras Al-Khaimah, UAE.

The Bank is engaged in providing retail, commercial, islamic banking and treasury services through a network of nineteen branches in the UAE. The Bank is controlled by the Government of Ras Al-Khaimah by majority of voting rights.

At 30 June 2024 The National Bank of Ras Al-Khaimah (P.S.C.) comprises the Bank and seven subsidiaries (together referred to as the "Group"). The consolidated financial statements for the six months period ended 30 June 2024 comprises the Bank and following direct subsidiaries:

Subsidiary	Authorized & issued capital	Ownership interest	Incorporated	Principal Activities
Ras Al Khaimah National Insurance Company PSC	AED 121.275 million	79.23%	UAE	Underwriting all types of Insurance business.
BOSS FZCO	AED 500,000	80%*	UAE	Back office support services to the Bank.
RAK Technologies FZCO	AED 500,000	80%*	UAE	Technological support services to the Bank.
Rakfunding Cayman Limited	Authorized USD 50,000 Issued USD 100	100%	Cayman Island	To facilitate the issue Euro medium term notes (EMTN) under the Bank's EMTN program.
Rak Global Markets Cayman Limited	Authorized USD 50,000 Issued USD 1	100%	Cayman Island	To facilitate Treasury transactions.
RAK Financial Services Limited	USD 5,000,000	100%	Dubai International Financial Centre, UAE	Arranging and advising on Financial products, Investments and custody.
Protego Insurance Brokers L.L.C.	AED 8,500,000	100%	UAE	Insurance brokerage

* These represent legal ownership of the Bank. However, beneficial ownership is 100% as the remaining interest is held by a related party on trust and for the benefit of the Bank.

2 Application of new and revised IFRS Accounting Standards

(a) New and revised IFRS Accounting Standards applied with no material effect on the condensed consolidated financial information

The following new and revised IFRSs, which became effective for annual periods beginning on or after 1 January 2024 have been adopted in these condensed consolidated interim financial information. The application of these revised IFRSs and interpretations have not had any material impact on the amounts reported for the current and prior periods but may affect the accounting for future transactions or arrangements.

New and revised IFRSs	Effective for annual periods beginning on or after
Lease Liability in a Sale and Leaseback – Amendments to IFRS 16, In September 2022, the IASB finalised narrow-scope amendments to the requirements for sale and leaseback transactions in IFRS 16 Leases which explain how an entity accounts for a sale and leaseback after the date of the transaction. The amendments specify that, in measuring the lease liability subsequent to the sale and leaseback, the seller-lessee determines 'lease payments' and 'revised lease payments' in a way that does not result in the seller-lessee recognising any amount of the gain or loss that relates to the right of use that it retains. This could particularly impact sale and leaseback transactions where the lease payments include variable payments that do not depend on an index or a rate.	1 January 2024
Presentation of financial statements' on classification of liabilities , These narrow-scope amendments to IAS 1, 'Presentation of financial statements', clarify that liabilities are classified as either current or non-current, depending on the rights that exist at the end of the reporting period. Classification is unaffected by the expectations of the entity or events after the reporting date (for example, the receipt of a waiver or a breach of covenant). The amendment also clarifies what IAS 1 means when it refers to the 'settlement' of a liability.	1 January 2024
Non-current Liabilities with Covenants – Amendments to IAS 1, Covenants of loan arrangements will not affect classification of a liability as current or non-current at the reporting date if the entity must only comply with the covenants after the reporting date. However, if the entity must comply with a covenant either before or at the reporting date, this will affect the classification as current or non-current even if the covenant is only tested for compliance after the reporting date.	1 January 2024

2 Application of new and revised IFRS Accounting Standards (continued)

(a) New and revised IFRS Accounting Standards applied with no material effect on the condensed consolidated financial information (continued)

New and revised IFRSs	Effective for annual periods beginning on or after
Supplier finance arrangements – Amendments to IAS 7 and IFRS 7, The IASB has issued new disclosure requirements about supplier financing arrangements ('SFAs'), after feedback to an IFRS Interpretations Committee agenda decision highlighted that the information required by IAS 7 Statement of Cash Flows and IFRS 7 Financial Instruments: Disclosures falls short of meeting user information needs. The objective of the new disclosures is to provide information about SFAs that enables investors to assess the effects on an entity's liabilities, cash flows and the exposure to liquidity risk.	1 January 2024
Sale or contribution of assets between an investor and its associate or joint venture – Amendments to IFRS 10 and IAS 28, The IASB has made limited scope amendments to IFRS 10 Consolidated Financial Statements and IAS 28 Investments in Associates and Joint Ventures. The amendments clarify the accounting treatment for sales or contribution of assets between an investor and their associates or joint ventures. They confirm that the accounting treatment depends on whether the non-monetary assets sold or contributed to an associate or joint venture constitute a 'business' (as defined in IFRS 3 Business Combinations). Where the non-monetary assets constitute a business, the investor will recognise the full gain or loss on the sale or contribution of assets. If the assets do not meet the definition of a business, the gain or loss is recognised by the investor only to the extent of the other investor's interests in the associate or joint venture. The amendments apply prospectively.	Not applicable

3 Material accounting policies

3.1 Basis of preparation

The condensed consolidated interim financial information of the Group is prepared under the historical cost basis except for certain financial instruments which are measured at fair value. Historical cost is generally based on the fair value of the consideration given in exchange for assets.

These condensed consolidated interim financial information are prepared in accordance with International Accounting Standard 34: Interim Financial Reporting ("IAS 34"), issued by the International Accounting Standard Board (IASB) and also comply with the applicable requirements of the laws in the U.A.E.

The accounting policies used in the preparation of these condensed consolidated interim financial information are consistent with those used in the audited annual consolidated financial statements for the year ended 31 December 2023.

These condensed consolidated interim financial information do not include all the information required for full annual consolidated financial statements and should be read in conjunction with the Group's audited annual consolidated financial statements as at and for the year ended 31 December 2023. In addition, results for the six months period ended 30 June 2024 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2024.

The Group has applied IFRS 17 *Insurance contracts* for annual reporting periods commencing on 1 January 2023. On transition to IFRS17 a full retrospective approach was applied to the insurance contracts in force, as a result of which condensed consolidated statement of financial statement have been accordingly restated. The accounts impacted by the restatement on the transition as disclosed in Note 35 remain unaudited.

3.2 Consolidation

The condensed consolidated interim financial information incorporate the condensed consolidated interim financial information of The National Bank of Ras Al-Khaimah (P.S.C.) and its subsidiaries (collectively referred to as "Group").

(i) Subsidiaries

Subsidiaries are all entities over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group.

(ii) Transactions eliminated on consolidation

Intra-group balances and income and expenses (except for foreign currency transaction gains or losses) arising from intra-group transactions, are eliminated in preparing the condensed consolidated interim financial information. Unrealized losses are eliminated in the same way as unrealized gains, but only to the extent that there is no evidence of impairment.

3 Material accounting policies (continued)

3.2 Consolidation (continued)

(iii) Acquisition accounting

The acquisition method of accounting is used to account for the acquisition of subsidiaries. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured at their fair values at the acquisition date, irrespective of the extent of any non-controlling interest, and the Group allocates the purchase price to these net assets acquired. The measurement period for purchase price allocations ends as soon as information on the facts and circumstances becomes available, but does not exceed 12 months. The Group policy is aligned with that laid out in IFRS 3.

The consideration transferred for the acquiree is measured at the fair value of the assets given up, equity instruments issued and liabilities incurred or assumed, but excludes acquisition related costs such as advisory, legal, valuation and similar professional services which are charged to the income statement.

The Group measures non-controlling interest that represents present ownership interest and entitles the holder to a proportionate share of net assets in the event of liquidation on a transaction by transaction basis.

Goodwill is measured by deducting the net assets of the acquiree from the aggregate of the consideration transferred for the acquiree, the amount of non-controlling interest in the acquiree and fair value of an interest in the acquiree held immediately before the acquisition date.

3.3 Cash and cash equivalents

For the purpose of condensed consolidated interim statement of cash flows, cash and cash equivalents comprise of cash on hand, unrestricted balances held with central banks and highly liquid financial assets (such as current, call accounts and placements) with original maturities of three months or less from the date of its acquisition.

4 Cash and balances with UAE Central Bank

	30 June 2024 (un-audited) AED'000	31 December 2023 (audited) AED'000
Cash in hand	**778,051**	819,513
Balances with the UAE Central Bank	**7,504,400**	4,905,602
	8,282,451	5,725,115

As per the CBUAE regulations, the Bank is allowed to draw their balances held in the UAE Central Bank reserve account, while ensuring that they meet the reserve requirements over 14 days period. Therefore the balances have been classified as part of cash and cash equivalent (Note 26).

Notes to the condensed consolidated interim financial information for the period from 1 January 2024 to 30 June 2024 (continued)

Expected credit loss allowance

A summary of the provision for credit loss and the net movement on financial instruments by category are as follows:

	At 31 December 2023 AED'000	Net change AED'000	Other movement AED'000	At 30 June 2024 AED'000
Due from other banks	51,627	20,815	-	**72,442**
Loans and advances	2,514,887	434,747	(283,265)	**2,666,369**
Investment Securities – FVOCI	181,012	(3,173)	3,170	**181,009**
Investment Securities – Amortised cost	77,708	(7,552)	-	**70,156**
Other receivables	33,441	2,283	97	**35,821**
Customer acceptances	7,115	(6,708)	-	**407**
Off balance sheet items	24,755	(53)	-	**24,702**
Total	2,890,545	440,359	(279,998)	**3,050,906**

23 Taxation

Below is an analysis of the group's income tax recognized during the period / year:

	Six months period ended 30 June	
	2024 (un-audited) AED'000	2023 (un-audited) AED'000
Current tax recognized in profit or loss for the period		
Current tax expense on profits for the period	**105,586**	-
	105,586	-
Current tax recognized in Other comprehensive income for the period		
Current tax income for the period recognized on items that will not be reclassified subsequently to profit or loss	**(2,792)**	-
	(2,792)	-

23 Taxation (continued)

	30 June 2024 (un-audited) AED'000	31 December 2023 (un-audited) AED'000
Deferred income tax liability		
Deferred tax liability at the beginning of the period/year	**13,733**	-
Increase / (decrease) during the period/year recognized in OCI on items that may be reclassified subsequently to profit or loss	**106**	-
Increase / (decrease) during the period/year recognized in profit or loss	**-**	13,733
	13,839	13,733

For determining the tax expense for the period the accounting profit has been adjusted for tax purposes. Adjustments for tax purpose include items relating to both income and expense. After giving effect to these adjustments the average effective tax rate is estimated to 8.83%.

24 Earnings per share

The basic earnings per share is calculated by dividing the net profit attributable to owners of the Parent by the weighted average number of ordinary shares in issue during the period:

	Three months period ended 30 June		**Six months period ended 30 June**	
	2024 (un-audited) AED'000	2023 (un-audited) AED'000	**2024 (un-audited) AED'000**	2023 (un-audited) AED'000
Profit for the period after tax (attributed to owners of the Bank)	**515,842**	449,552	**1,089,329**	900,761
Weighted average number of shares in issue (in thousands)	**2,011,495**	2,011,495	**2,011,495**	2,011,495
Basic earnings per share (AED)	**0.26**	0.22	**0.54**	0.45

As the number of ordinary shares outstanding increased as a result of bonus shares issued in June 2023, the calculation of basic and diluted earnings per share for all periods presented has been adjusted retrospectively as per IAS 33.

25 Fiduciary activities

The Group holds assets in a fiduciary capacity for its customers without recourse. At 30 June 2024, market value of such assets amounted to AED 5,698 million (31 December 2023: AED 5,627 million) and are excluded from the condensed consolidated interim financial information of the Group.

26 Cash and cash equivalents

	30 June 2024 (un-audited) AED'000	30 June 2023 (un-audited) AED'000 Restated
Cash in hand and balances with UAE Central Bank	**8,282,451**	6,883,429
Due from other banks	**14,287,534**	12,904,758
	22,569,985	19,788,187
Less: Due from other banks original maturity of three months or more	**(13,058,190)**	(10,832,710)
Less: Overdrawn account with UAE Central Bank	**-**	(1,187,981)
Cash and cash equivalents	**9,511,795**	7,767,496

27 Operating segments

Following the management approach of IFRS 8, operating segments are reported in accordance with the internal reporting to the management, which is responsible for allocating resources to the reportable segments and assesses its performance. All operating segments used by the Group meet the definition of a reportable segment under IFRS 8.

To align with the direction of the Group's strategy there is a reclassification and aggregation of segments. The Chief Operating Decision Maker (CODM) has reassessed the segments getting reported.

Following re-alignments and aggregation have been made within our internal reporting:

(a) Aggregation of business performance of "Treasury & other" with "Wholesale Banking", into one reporting segment of "Wholesale Banking" The shift in internal reporting and aggregation was further augmented to include financial information and metrics on the consumption of, and returns on, capital. The aggregated view of the operating segment is used by management to allocate resources and assess performance.

(b) Aggregation of business performance of "Head office & unallocated cost" and "Insurance business" into one reporting segment disclosed as "Head office & others" on reassessment of the financial significance of the reporting segments. Further, we have reviewed the central costs previously reported within "Head office & Unallocated cost" and reallocated them to the other operating segments as appropriate.

27 Operating segments (continued)

The Group has four main business segments:

- Retail banking – incorporating individual customer and certain business current accounts, savings accounts, deposits, credit and debit cards, individual customer loans and mortgages;
- Wholesale banking – incorporating transactions with corporate bodies including government and public bodies and comprising of loans, advances, deposits and trade finance transactions of corporate customers and financial institutions, including Treasury related activities on the dealing room, related money market, and foreign exchange transactions and hedging activities with other banks and financial institutions;
- Business banking – incorporating transactions comprising of loans, advances, deposits and trade finance transactions of SME; and
- Head Office and Others – Comprises Central funding & other support functions including insurance related transactions of Raknic subsidiary.

The above segments include conventional and Islamic products and services of the Group.

As the Group's segment operations are all financial with a majority of revenues deriving from interest and fees and commission income, the management relies primarily on revenue and segmental results to assess the performance of the segment.

Funds are ordinarily allocated between segments, resulting in funding cost transfers disclosed in inter-segment revenue. Interest charged for these funds is based on the Group's funds transfer pricing guidelines. There are no other material items of income or expense between the business segments.

The Group's management reporting is based on a measure of net profit comprising net interest income, loan impairment charges, net fee and commission income, other income and non-interest expenses.

Operating segments are identified on the basis of internal reports about the components of the Group that are regularly reviewed by the CEO (the chief operating decision maker) in order to allocate resources to the segment and to assess its performance.

Notes to the condensed consolidated interim financial information for the period from 1 January 2024 to 30 June 2024 (continued)

27 Operating segments (continued)

The segment information provided to the management for the reportable segments for the periods ended 30 June 2024 and 30 June 2023 are as follows:

	Retail Banking AED'000	Wholesale Banking AED'000	Business Banking AED'000	Head office & Others AED'000	Total AED'000

Tier 1 Capital base after Regulatory adjustments	**10,612,786**	9,667,864
Tier 2 capital base	**674,189**	627,287
Total capital base	**11,286,975**	10,295,151
Risk weighted assets		
Credit risk	**53,935,144**	50,182,963
Market risk	**2,718,316**	1,412,204
Operational risk	**6,210,430**	6,210,430
Total risk weighted assets	**62,863,890**	57,805,597
Capital adequacy ratio on Tier 1 capital	**16.88%**	16.72%
Capital adequacy ratio on Tier 2 capital	**1.07%**	1.09%
Total Capital adequacy ratio	**17.95%**	17.81%

29 Capital adequacy (continued)

As per the Central Bank of UAE Regulation for Basel III, the Minimum Capital requirement including Capital Conservation Buffer is 13.0% for both periods. Additionally, Central Bank of UAE regulation dated 22 April 2020 provides for a "Prudential Filter" that permits Banks and Finance Companies to add back increases in IFRS 9 provisions to the regulatory capital over a transition period of 5 years, on a proportionate basis.

30 Fair values of financial assets and liabilities

Fair value is the amount for which an asset could be exchanged or a liability settled between knowledgeable, willing parties in an arm's length transaction. Consequently, differences can arise between the carrying values and fair value estimates of financial assets and liabilities. Underlying the definition of fair value is the presumption that the Group is a going concern without any intention or requirement to materially curtail the scale of its operations or to undertake a transaction on adverse terms. At 30 June 2024, the carrying value of the Group's financial assets and liabilities approximates their fair values, except for the below mentioned financial assets and liabilities:

	Fair value		**Carrying value**	
	30 June 2024 (un-audited) AED'000	31 December 2023 (audited) AED'000	**30 June 2024 (un-audited) AED'000**	31 December 2023 (audited) AED'000

Total financial liabilities	**66,819,339**	60,746,492	**66,561,272**	60,594,732

31 Fair value hierarchy

The fair value measurements are categorized into different levels in the fair value hierarchy based on the inputs to valuation techniques used. The different levels are defined as follows:

(a) Quoted market prices - Level 1

Financial instruments are classified as Level 1 if their values are observable in an active market. Such instruments are valued by reference to unadjusted quoted prices for identical assets or liabilities in active markets where the quoted price is readily available, and the price represents actual and regularly occurring market transactions.

(b) Valuation techniques using observable inputs - Level 2

Financial instruments classified as Level 2 have been valued using models whose inputs are observable in an active market. Valuation based on observable inputs includes financial instruments such as forward foreign exchange contracts which are valued using market standard pricing techniques.

(c) Valuation techniques using significant unobservable inputs - Level 3

Financial instruments are classified as Level 3 if their valuation incorporates significant inputs that are not based on observable market data (unobservable inputs). A valuation input is considered observable if it can be directly observed from a transaction in an active market.

Unobservable input levels are generally determined based on observable inputs of a similar nature, historical observations or other analytical techniques. This hierarchy requires the use of observable market data when available. The Group considers relevant and observable market prices in its valuations where possible. The table below analyses recurring fair value measurements for assets and liabilities.

31 Fair value hierarchy (continued)

32 Critical accounting judgements and key sources of estimation of uncertainty

In the application of the Group's accounting policies, which are described in Note 2, management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The critical accounting judgements and key sources of estimation of uncertainty used in the preparation of these condensed consolidated interim financial information are consistent with those used in the audited annual consolidated financial statements for the year ended 31 December 2023.

33 Seasonality of results

Dividend income of AED 23.0 million (30 June 2023: AED 15.3 million) of seasonal nature was recorded in the condensed consolidated interim financial information for the period.

34 Risk management

The Group monitors credit risk per class of financial instrument. Following are the identified classes of financial instruments.

- Due from other banks;
- Debt investment securities carried at FVOCI and amortised cost;
- Loans and advances to customers;
- Customer acceptances and other financial assets;
- Loan commitments; and
- Financial guarantees

34 Risk management (continued)

(a) Measurement of Expected Credit loss (ECL)

IFRS 9 framework requires the estimation of Expected Credit Loss ("ECL") based on current and forecast economic conditions. In order to assess ECL under forecast economic conditions, the Bank utilizes a range of economic scenarios of varying severity, and with appropriate weightings, to ensure that ECL estimates are representative of a range of possible economic outcomes. The Bank has robust governance in place to ensure the appropriateness of the IFRS 9 framework and resultant ECL estimates at all times. Specifically, all aspects of the IFRS 9 framework are overseen by an IFRS 9 Steering Committee with participation from the Chief Risk Officer, Chief Financial Officer and other members from Risk and Finance functions. The Bank, through this committee, reviews the appropriateness of inputs and methodology for IFRS 9 ECL, effectiveness and reliability of the reporting under IFRS 9 and other relevant matters pertaining to IFRS 9 on an ongoing basis.

The Group based on historical analysis determines key economic variables that impacts the credit risk of its various portfolios and uses macro-economic forecasts for these variables to estimate the Probability of Defaults ("PDs"). The Group employs experts who use external and internal information to generate 3 scenarios viz. Baseline, Upside and Downside, in accordance with the IFRS 9 requirements.

The Group has used the updated macro-economic forecasts for the period and is currently using the weightings of (40:30:30) for Baseline: Upside: Downside scenarios. The sensitivity to 10% increase in Downside Scenario, with a corresponding decrease of 10% in Upside scenario is AED 40.9 million as of 30 June 2024.

For the purpose of IFRS 9 related notes and disclosures, Non-Retail portfolio means Wholesale and Business Banking Loans excluding RAK Business Loans. An analysis of the Group's credit risk exposures of major classes of financial instruments without taking into account the effects of any collateral or other credit enhancement is provided in the following tables.

35 Restatement of comparative information

Management has re-evaluated the presentation of certain transactions and balances in the Statement of profit and loss and Statement of cash flows to determine if certain transactions and balances have been presented appropriately in line with the requirements of International Financial Reporting Standards ("IFRS"). Where necessary, changes in presentation were made in accordance with International Accounting Standard ("IAS 8") - Accounting policies, changes in accounting estimates and errors".

(a) Changes to the statement of profit and loss

(i) Presentation of insurance revenue and expenses on adoption of IFRS 17

In the prior year interim financial statement, the Group had applied IFRS 17 - Insurance Contracts from 1 January 2023. However, the Group had not considered the consequential amendments to the International Accounting Standard 1 ("IAS 1") - Presentation of Financial Statements which required the presentation of certain financial statement line items on the statement of profit and loss. The Group presented the insurance results majorly as a part of Net insurance underwriting profit. The Group has now presented separately the insurance revenue and insurance expenses in the statement of profit and loss.

As a result, management restated the comparatives as to correct the misstatements detailed below in the statement of profit or loss for the period ended 30 June 2023 as prior period restatements.

Consolidated statement of profit or loss

	As previously reported 30 June 2023	Impact on adoption of IFRS 17	As at 30 June 2023 (restated)
	AED'000	AED'000	AED'000
Insurance revenue	15,497	283,694	299,191
Insurance expense	-	(313,361)	(313,361)
General and administrative expenses	(794,564)	27,000	(767,564)

(1) Reclassification of "Statutory deposit with the UAE Central Bank from Operating activities to Cash and Cash Equivalent

In previous years, the Group had classified changes in "Statutory deposits with the UAE Central Bank" within "Net Cash generated from operating activities". According to the UAE Central Bank regulations, the Bank is allowed to draw on the statutory deposit with the UAE Central Bank on any day up to 100%, while ensuring that it meets the reserve requirements over a 14 day period. International Accounting Standard 7 ("IAS 7") - Statement of cash flows requires demand deposit to be classified as "Cash and Cash equivalents in the statement of cash flows.

35 Restatement of comparative information (continued)

(1) Reclassification of "Statutory deposit with the UAE Central Bank from Operating activities to Cash and Cash Equivalent (continued)

For the period ended 30 June 2023, the Company re-assessed the nature of the "Statutory deposits with the UAE Central Bank" and concluded that the balances are available on demand and meet the definition of Cash and Cash equivalents, and therefore should be classified as cash and cash equivalents in the consolidated statement of cash flows.

(2) Reclassification of cash flows arising from Investment securities held for trading from "investing activities to "Operating activities"

In previous years, the Group had classified cash flows arising from investment securities held for trading as "investing activities" in the consolidated statement of cash flows. IAS 7 requires cash flows arising from the purchase and sale of securities held for trading to be classified as operating activities.

For the year ended 30 June 2023, the Company re-assessed the above requirements and reclassified cash flows arising from investments securities held for trading from investing activities to operating activities in the consolidated statement of cash flows.
The above misstatements have been corrected by restating each of the affected financial statement line items for the prior periods as follows:

	Before restatement AED'000	**Restatement 1** AED'000	**Restatement 2** AED'000	**Adjusted** AED'000
Cash flows from operating activities				
(Increase)/ decrease in deposits with the UAE Central Bank	(1,552,095)	1,552,095	-	-
(Increase) / Decrease in Investment securities measured at fair value			(34,288)	34,288
Cash flows from investing activities				
Purchase of investment securities	(6,132,135)	-	1,283,428	(4,848,707)
Proceeds from maturity/ disposal of investment securities	5,912,171	-	(1,249,140)	4,663,031
Cash and cash equivalents, end of the year	4,022,250	3,745,246	-	7,767,496

36 Subsequent Events

There have been no events subsequent to the statement of financial position date that would significantly affect the amounts reported in the condensed consolidated interim financial statements as at and for the period ended 30 June 2024.

37 Approval of the condensed consolidated interim financial information

The condensed consolidated interim financial information was approved on 29 July 2024.
