REPORT ON REVIEW OF INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS TO THE SHAREHOLDERS OF SHARJAH CEMENT AND INDUSTRIAL DEVELOPMENT CO. (PJSC)

Introduction

We have reviewed the accompanying interim condensed consolidated financial statements of Sharjah Cement and Industrial Development Co. (PJSC) (the "Company") and its subsidiary (the "Group"), which comprise the interim consolidated statement of financial position as at 30 June 2024 and the related interim consolidated statements of profit or loss and interim consolidated statement of comprehensive income for the six-month and three-month periods then ended and interim consolidated statements of cash flows and changes in equity for the six-month period then ended and explanatory notes. Management is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with International Financial Reporting Standard IAS 34 Interim Financial Reporting ("IAS 34"). Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34.

1 CORPORATE INFORMATION

Sharjah Cement and Industrial Development Co. (PJSC) (the "Company") was incorporated in Sharjah, United Arab Emirates in 1977 under an Emiri Decree issued by H.H The Ruler of Sharjah and has since been registered as a public joint stock company. The registered office of the Company is P.O. Box 2083 Sharjah, United Arab Emirates. The shares of the Company are listed on Abu Dhabi Securities Market.

The interim condensed consolidated financial statements ('interim financial statements') as at and for the six-month period ended 30 June 2024 comprise the Company and its subsidiary (collectively referred to as the "Group").

The Group is engaged in the manufacture and supply of cement, paper sacks and plastic ropes. The Group invests its surplus funds in investment securities, private equities and properties. The Group operates from Sharjah, United Arab Emirates and sells its products in the UAE and certain other countries in the Middle East, Africa and Asia.

2 BASIS OF PREPARATION

Statement of compliance
These interim financial statements have been prepared in accordance with IAS 34 *Interim Financial Reporting*, and should be read in conjunction with the Group's last annual consolidated financial statements as at and for the year ended 31 December 2023 ('last annual financial statements'). They do not include all of the information required for a complete set of IFRS financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group's financial position and performance since the last annual financial statements.

In addition, results for the six months ended 30 June 2024 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2024.

Basis of measurement
These interim financial statements have been presented on the historical cost basis except for investments carried at fair value through other comprehensive income ("FVTOCI"), investments carried at fair value through profit or loss ("FVTPL") and derivative financial instruments which are measured at fair value.

Functional and presentation currency
These interim financial statements are presented in United Arab Emirates Dirham ("AED"), rounded to nearest thousand except when otherwise indicated, which is the Company's functional currency.

Accounting estimates and judgments
In preparing these interim financial statements, management has made judgements and estimates that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

The significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those described in the last annual financial statements.

Measurement of fair values
A number of the Group's accounting policies and disclosures require the determination of fair values, for both financial and non-financial assets and liabilities.

The Group has an established control framework with respect to the measurement of fair values. This includes a management team that has overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values. The management team regularly reviews significant unobservable inputs and valuation adjustments.

If third party information is used to measure fair values, then the management team assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of IFRS, including the level in the fair value hierarchy in which such valuations should be classified.

2 BASIS OF PREPARATION (continued)

Measurement of fair values (continued)
When measuring the fair value of an asset or liability, the Group uses market observable data as far as possible. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in valuation techniques as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or liability might be categorized in different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Group recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Further information about the significant assumptions made in measuring fair values are explained in Group's consolidated financial statements as at and for the year ended 31 December 2023.

2.1 BASIS OF CONSOLIDATION

The Group comprises of the Company and the under-mentioned subsidiary company.

Subsidiary	***Principal activity***	***Country of incorporation***	***Ownership***	
			2024	*2023*
Gulf Rope & Plastic Products Co. LLC	Rope and plastic products	United Arab Emirates	**100%**	100%

Basis of consolidation
The interim condensed consolidated financial statements comprise the financial statements of the Group and its subsidiary as at 30 June 2024. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if, and only if, the Group has:

- Power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee
- The ability to use its power over the investee to affect its returns

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee
- Rights arising from other contractual arrangements
- The Group's voting rights and potential voting rights

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it derecognises the related assets (including goodwill), liabilities, non-controlling interest and other components of equity while any resultant gain or loss is recognised in profit or loss. Any investment retained is recognised at fair value.

3 GROUP'S ACCOUNTING POLICIES

The accounting policies adopted in the preparation of the interim condensed financial statements are consistent with those followed in the preparation of the Groups annual consolidated financial statements for the year ended 31 December 2023, except for the adoption of new standards effective as of 1 January 2024 and the accounting policy for taxes which has been adopted by the Group due to the implementation of UAE corporate income tax. The Group has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

Taxes

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date in the countries where the Group operates and generates taxable income.

Current income tax relating to items recognised directly in equity is recognised in equity and not in the statement of profit or loss. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss;
- In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint arrangements, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss;
- In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint arrangements, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss. Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

3 GROUP'S ACCOUNTING POLICIES (continued)

Taxes (continued)

Deferred tax (continued)
The Group offsets deferred tax assets and deferred tax liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

New standards, interpretations and amendments
Several amendments apply for the first time in 2024, but do not have an impact on the interim condensed consolidated financial statements of the Group.

- Supplier Finance Arrangements - Amendments to IAS 7 and IFRS 7
- Amendments to IFRS 16: Lease Liability in a Sale and Leaseback
- Amendments to IAS 1: Classification of Liabilities as Current or Non-current

(i) This represents 35.5% shareholding of Autoline Industrial Park Limited ("AIPL) in India which holds industrial plots of land in Maharashtra, India.

(ii) The Board of Directors of AIPL has approved the sale of AIPL and has signed a Memorandum of Understanding with a buyer. The Board of Directors of the Group also approved the sale of Group's shareholding in AIPL.

(iii) The Group has signed a memorandum of understanding to sell its shareholding in AIPL to this buyer and agreed a payment plan. As of 30 June 2024, the Group has received an amount of INR 159 million equivalent to AED 6.2 million. As per the MOU the share transfer will initiate once the Group has received 49% of the amount. The Group expects to receive the full sale consideration over the next 12 months.

(iv) Management is of the view that the fair value less cost to sell is expected to be higher than the carrying value.

8 INVESTMENT PROPERTIES (continued)

Investment properties are accounted for using the cost model. The fair valuation of the investment properties is performed on a periodic basis, at least annually. Recent valuation was performed as at 31 December 2023 and has been arrived on the basis of a valuation report issued by an independent valuer. The valuer is registered in the United Arab Emirates. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an ordinary transaction between market participants at the measurement date. Fair value of the Group's investment properties are based on unobservable inputs (i.e. Level 3). The fair value of the entire portfolio of investment properties as at 31 December 2023 was AED 430,706 thousand.

Impairment of investment properties
Management has made impairment assessment based on the difference between projected rental income and actual inflows and involved an external valuer for valuation of investment properties. Based on the assessment, market value of the properties are not less than carrying value. Based on the valuation of the properties, during the prior period ended 30 June 2023 the Group had reversed a previously recorded impairment of AED 12,305 thousand.

13 STATUTORY RESERVE

In accordance with the UAE Federal Law No. (32) of 2021 and the Company's Articles of Association, 10% of the profit of the Company is allocated every year to a non-distributable statutory reserve. Such allocation may be ceased when the statutory reserve equals half of the paid up share capital of the Company. This reserve is not available for distribution except in circumstances stipulated by the law. The Board of Directors have not proposed any further transfer to the statutory reserve as the reserve is in excess of 50% of the paid up share capital.

14 GENERAL RESERVE

As per Company's Articles of Association, 10% of the profit for the year has to be transferred to general reserve until the reserve reaches 25% of the paid up share capital. This reserve is available for distribution at the recommendation of the directors and approval of shareholders in an ordinary general meeting. The Board of Directors have not proposed any further transfer to the general reserve as the reserve is in excess of 25% of the paid up share capital.

15 EARNINGS PER SHARE

The Group has to pay as and when calls are made by the fund managers/investee companies.

17 SEGMENT REPORTING

The Group has broadly two major reportable segments as described below, which are the Group's strategic business units. The strategic business units operate in different sectors and are managed separately because they require different strategies. The following summary describes the operation in each of the Group's reportable segments:

Manufacturing segment includes cement, paper sacks and ropes products.
Investment segment includes investment and cash management for the Company's own account.

Investment segment is organised into two business units as follows:

- Investment and letting out properties in UAE.
- Investment in public and private equities and funds, mainly in GCC and Asia.

The above segments are the basis on which the management monitors the operating results of these segments for the purpose of making decisions about resource allocation and performance assessment. Transactions between segments are eliminated on consolidation.

18 INCOME TAX

On 9 December 2022, the UAE Ministry of Finance released Federal Decree-Law No. 47 of 2022 on the Taxation of Corporations and Businesses (Corporate Tax Law or the Law) to enact a Federal corporate tax (CT) regime in the UAE. The CT regime will become effective for accounting periods beginning on or after 1 June 2023.

Decision No. 116 of 2022 (published in December 2022 and considered to be effective from 16 January 2023) specifies that taxable income not exceeding AED 375,000 would be subject to a 0% UAE CT rate, and taxable income exceeding AED 375,000 would be subject to the 9% UAE CT rate. With the publication of this Decision, the UAE CT Law is considered to have been substantively enacted for the purposes of accounting for Income Taxes.

18 INCOME TAX (continued)

Subsequently, the UAE CT Law has been supplemented by a number of Decisions of the Cabinet of Ministers of the UAE (Decisions). Such Decisions and other interpretive guidance of the UAE Federal Tax Authority provide important details relating to the interpretation of the UAE CT Law and are required to fully evaluate the impact of the UAE CT Law on the Group. The Group is subject to the provisions of the UAE CT Law for the six-month period ended 30 June 2024. Tax charge for the period ended 30 June 2024 is AED 260 thousand representing effective tax rate of 2.6%.
