Management is responsible for the preparation and presentation of this condensed interim financial information in accordance with IAS 34, *'Interim Financial Reporting'*. Our responsibility is to express a conclusion on this condensed interim financial information based on our review.

Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements 2410, *"Review of Interim Financial Information Performed by the Independent Auditor of the Entity"*. A review of condensed interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

21 Related party balances and transactions

Related parties include the Company's major shareholders, directors and those entities controlled by them and their families over which they exercise significant management influence as well as key management personnel.

Directors are expected to avoid any action, position, or interest that conflict with an interest of the Company. Details of all transactions in which a director and/or related parties might have actual or potential conflicts are provide to the Board of Directors for their review and approval When a potential conflict of interest arises, the directors concerned neither participate in the discussions nor exercise any influence over other members of the Board. If a major shareholder or a Director as any conflict of interests with any matter to be considered by the Board of Directors and the Board of Directors determines that such a matter is significant, the decision thereon by the Board of Directors shall be made in the presence of all directors and in the absence of the interested director's vote.

Key management personnel are defined as those persons having authority and responsibility for planning, directing, and controlling the activities of the Company, being the directors, chief executive office and his direct reports.

No related party transactions were identified which met the criteria as per the local regulations and the transactions reported below are assessed related party transactions following the requirements of IAS 24.

The Company maintains significant balances with these related parties which arise from commercial transactions in the ordinary course of business at commercial rate as follows:

22 Contingent liabilities and capital commitments

The Company, in common with the significant majority of insurers, is subject to litigation in the normal course of its business. The Company, based on independent legal advice, has considered that existing provision is adequate to cover probable outflow of these court cases.

23 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. As such, differences can arise between book values and the fair value estimates. Underlying the definition of fair value is the presumption that the Company is a going concern without any intention or requirement to materially curtail the scale of its operation or to undertake a transaction on adverse terms.

Fair value of financial instruments carried at amortised cost

Management considers that the carrying amounts of financial assets and financial liabilities recognised at amortised cost in the condensed financial information approximate their fair values.

Valuation techniques and assumptions applied for the purposes of measuring fair value

The fair values of financial and non-financial assets and financial liabilities are determined using similar valuation techniques and assumptions as used in the audited annual financial statements for the year ended 31 December 2024.

Fair value of the Company's financial assets that are measured at fair value on recurring basis

The following table gives information about how the fair values of these financial assets are determined:

23 Fair value measurement (Continued)

Fair value measurements recognised in the condensed statement of financial position

The following table provides an analysis of financial assets and non-financial assets that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 based on the degree to which the fair value is observable:

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).
