We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

Risk management framework

Senior management has an overall responsibility for the establishment and oversight of the Group's risk management framework. The Board is responsible for developing and monitoring the Group's risk management policies.

The Group's risk management policies are established to identify and analyze the risks faced by the Group, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Audit Committee oversees how management monitors compliance with the Group's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Group. The Audit Committee is assisted in its oversight role by the Internal Audit Department. The Internal Audit Department undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the Audit Committee.

5.1 Exposure to credit risk

The Group establishes an allowance for impairment that represents its estimate of expected losses in respect of trade and other receivables. The main components of this allowance are a specific loss component that relates to individually significant exposures. The carrying amount of financial assets represents the maximum credit exposure. With respect to transactions with financial institutions, the group sets limits to the credit worthiness rating of the counterparty. The maximum credit risk is the carrying amount of financial instruments, for an overview, reference is made to the tables of financial instruments by category.

The major exposure to credit risk at the reporting date was as follows:

$ millions	Note	31 March 2025	31 December 2024

5.2 Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation. This is also safeguarded by using multiple financial institutions in order to mitigate any concentration of liquidity risk.

The availability of cash is monitored internally at Group level, on an ongoing basis by the corporate treasury department. In addition management prepared at closing date a cash flow projection to assess the ability of the Group to meet its obligations.

The following are the contractual maturities of financial liabilities, including estimated interest payments and exclude the impact of netting arrangements.

At 31 December 2024 $ millions	Note	Carrying amount	Contractual cash flow	6 months or less	6–12 months	1–5 years

Total		**1,881.6**	**1,907.8**	**1,648.4**	**189.8**	**69.6**

The interest on floating rate loans and borrowings is based on forward interest rates at period-end. This interest rate may change as the market interest rate changes.

5.3 Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

The Group is exposed to foreign currency risk arising in separate ways:

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

Foreign exchange translation exposure

Due to the Group's international presence, OC PLC's Financial Statements are exposed to foreign exchange fluctuations as these affect the translation of the subsidiaries' assets and liabilities presented in foreign currencies to the US dollar (the Group's presentation currency). The currencies concerned are mainly Egyptian Pound and Euro. Foreign exchange translation exposure is considered a part of doing business on an international level; this risk is not actively managed, nor is it hedged.

Exchange rates used by the Group in the consolidated financial statement are based on the prevailing exchange rates in the market at the time of transactions.

OC PLC is not exposed to Saudi Riyal, UAE Dirham and Qatar Riyal. These currencies are pegged to the US dollar.

The Group entities predominantly execute their activities in their respective functional currencies. Some Group subsidiaries are, however, exposed to foreign currency risks in connection with the scheduled payments in currencies that are not their functional currencies. In general this relates to foreign currency denominated supplier payables due to project procurement, capital expenditures and receivables. The Group monitors the exposure to foreign currency risk arising from operating activities.

The Group is exposed to foreign exchange transaction exposure to the extent that there is a mismatch between the currencies in which sales, purchases and borrowings are denominated and the respective functional currencies of Group companies. The functional currencies of Group companies are primarily Euro, US Dollar, Egyptian Pound, Saudi Riyal, Algerian Dinar and UAE Dirham.

The Group uses foreign exchange contracts to manage its foreign exchange transaction exposure. No hedge accounting is applied; therefore all fair value changes are recognised in profit and loss.

The summary of quantitative data about the Group's exposure to foreign exchange transaction exposure provided to management of the Group based on its risk management policy for the main currencies was as follows:

At 31 December 2024 $ millions	EUR	EGP
Cash and cash equivalents (including loans and borrowings)	196.4	(209.3)
Trade and other receivables	2.9	628.4
Trade and other payables	(0.2)	(629.0)

At 31 March 2025 $ millions	EUR	EGP
Cash and cash equivalents (including loans and borrowings)	181.7	(255.5)
Trade and other receivables	4.2	833.6
Trade and other payables	-	(770.9)

Significant rates

The following significant exchange rates were applied during the period ended 31 March 2025:

	Average 2025	Closing 31 March 2025	Opening 1 January 2025
Egyptian Pound	0.0198	0.0198	0.0197
Saudi Riyal	0.2665	0.2666	0.2662
UAE Dirham	0.2723	0.2723	0.2723
Euro	1.0491	1.0816	1.0410

The following tables demonstrate the sensitivity to a reasonably possible change in EUR and EGP exchange rates, with all other variables held constant. The impact on the Group's profit before tax is due to changes in the fair value of monetary assets and liabilities, including inter company positions. The Group's exposure to foreign currency changes for all other currencies is not material.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

As of 31 March 2025, if the functional currencies had strengthened/weakened by 10 percent against the Euro and 10 percent against the Egyptian Pound with all other variables held constant, the translation of foreign currency receivables, cash and cash equivalents, payables and loans and borrowings that would have resulted in an increase/decrease of USD 20.1 million of the profit / loss of the three month period ended 31 March 2025 (31 December 2024: USD 20.0 million).

31 December 2024 $ millions	Change in FX rate*	Effect on profit before tax	Effect on equity
EUR - USD	10%	19.9	19.9
EGP - USD	10%	0.1	(21.0)

31 March 2025 $ millions	Change in FX rate*	Effect on profit before tax	Effect on equity
EUR - USD	10%	18.6	18.6
EGP - USD	10%	1.5	(19.3)

* Determined based on the volatility of last year for the respective currencies.

Interest rate risk

The Group's cash flow interest rate risks arise from the exposure to variability in future cash flows of floating rate financial instruments. The Group reviews its exposure in light of global interest rate environment after consulting with a consortium of global banks.

The Group calculates the impact on profit or loss of a defined interest rate shift. The same interest rate shift is used for all currencies. The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of borrowings affected. With all other variables held constant, the Group's profit before tax is affected through the impact on floating rate borrowings, as follows:

As of 31 March 2025, if the interest rate had strengthened/weakened by 10 percent with all other variables held constant, the interest cost that would have resulted in an increase/decrease of USD 2.3 million of the profit of the three month period ended 31 March 2025 (31 December 2024 : USD 7.6 million)

$ millions	Change in interest rate	31 March 2025	31 December 2024

26.1.2 Litigations and claims

The Group entities and joint ventures, are engaged in various legal disputes, acting either as defendants or claimants. These cases are closely monitored by management and legal counsel, who evaluate them for potential impacts, taking into account possible insurance recoveries and third-party claims. Provisions for potential financial impacts from unfavorable outcomes are recognized in the interim consolidated financial statements in accordance with the requirements of IAS 37 "Provisions, Contingent Liabilities, and Contingent Assets", specifically under note 19 'Provisions,'. However, due to uncertainties such as potential new lawsuits, settlements, or court decisions, the Group cannot determine any additional financial loss with certainty. Despite this, based on legal consultations, the management believes these legal matters will not substantially affect the Group's financial position as of 31 March 2025, though they may significantly impact operational results or cash flows in specific periods.

Furthermore, the Group faces potential claims from customers and claims from subcontractors and accordingly sets aside adequate provisions, with these reserves being periodically reviewed to account for any significant claims or litigation risks. Legal assessments suggest that these provisions are sufficient, and no significant additional cash outflows are anticipated beyond what has already been accounted for. In adherence to IAS 37 guidelines on "Provisions, Contingent Liabilities, and Contingent Assets," the Group has chosen not to disclose full details of these legal disputes. This decision is driven by the belief that such disclosures could compromise the Group's position in ongoing and contested legal matters, prioritizing the protection of their legal strategy while managing litigation risks within the framework of IAS 37.

26.1.3 Sidra Medical Center

The contract for the design and build of the Sidra Medical and Research Centre in Doha, Qatar, was awarded by Qatar Foundation for Education, Science & Community Development (the "Foundation") in February 2008 to Obrascón Huarte Lain (55%) and Contrack Cyprus Limited (45%), hereinafter referred to as the "JV", for a total contract value of approximately USD 2.4 billion.

In July 2014, when the project was approx. 95% complete, the JV received a Notice of Termination from the Foundation. On or around the same date, the Foundation successfully liquidated the JV's performance bank and advance payment guarantees, receiving a total of QAR 880 million. On 23 July 2014, the Foundation commenced arbitration proceedings against Obrascón Huarte Lain and Contrack Cyprus Limited by serving a Request for Arbitration with the ICC (seat in London). Since 2014, several hearings and expert meetings took place and partial awards have been issued by the tribunal. An award (resolving all claims except interest and costs) is expected by the end of Q2 2025.

In August 2017, the Foundation again served a Request for Arbitration, this time in parallel proceedings against OCI SAE with the ICC (seat in London). The claims made by the Foundation in this new arbitration arise in connection with a Parent Company Guarantee (the "PCG") issued by OCI SAE on 7 February 2008. The Foundation alleged that the terms of the PCG protect it in respect of liabilities and obligations of Contrack (Cyprus) Limited on the Project. This arbitration is on hold since March 2020 pending decision in the main arbitration in the paragraph above. If claims are awarded against Contrack (Cyprus) Limited in that arbitration, the Tribunal will have to consider its implications on OCI SAE in this arbitration.

26.1.4 King Abdul-Aziz Airport Development project

Saudi Binladin Group ("SBG") entered into an EPC contract with the General Authority of Civil Aviation of the Kingdom of Saudi Arabia, for the King Abdul-Aziz Airport Development Project - Phase 1 (the "Project"). Orascom Saudi Limited ("OS"), a company which OCI Construction Limited (Cyprus) has a participation of 60%, entered into a series of five subcontracts (the "Subcontracts") with SBG to carry out works related to the project throughout 2011 to 2015. Under the Subcontractors, OS encountered several delays in the commencement, performance and completion of the works against the originally contemplated time schedule resulting in time and cost damages to OS.

On 25 June 2019, OS commenced arbitration proceedings by filing a Request for Arbitration before the ICC Court of Arbitration (seat in Cairo) claiming its entitlement to extensions of time and additional costs. On 8 September 2019, SBG filed its Answer to the Request for Arbitration, counterclaiming that OS was overpaid and seeking recovery of the amount. On 19 September 2019, the Arbitral Tribunal was constituted. In August 2020, OS submitted its Statement of Claim, followed by SGB filing its Statement of Defence and Counterclaim in May 2021. During the months of May through to December 2021, the Parties were engaged in a document production phase, together with the exchange or written submissions on the claims and counterclaims. The arbitration was subsequently suspended while the Parties engaged in amicable settlement discussions.

In March 2025, the Parties signed a Settlement Agreement for the full and final settlement of all claims concerning the Project. The Parties are in the process to submit a request to the Tribunal requesting the Final Consent Award. The arbitration will be terminated only after the consent award is issued.

26.1.5 USA Claims

In addition to the cases identified above, the Group is involved in other disputes of a lower value, namely in the United States, either as defendants or claimants. Provisions are considered in the Group's accounts when deemed appropriate.
