

# Prometheus Protect – UAE-designed global medical and security concierge launched at ISNR 2026

**Abu Dhabi, United Arab Emirates, May 20, 2026:** Prometheus Medical International (PMI), a subsidiary of Response Plus Medical (RPM) and a global leader in emergency medical training and consultancy, today announced the launch of **Prometheus Protect** – an elite, global security and medical concierge membership developed in the UAE and designed for discerning individuals seeking world-class standards of security & medical care.

Prometheus Protect was unveiled at the International Exhibition for National Security and Resilience (ISNR) 2026 currently under way at ADNEC, Abu Dhabi and reinforces UAE's position as the leading global benchmark for ensuring security, preparedness, and world-class service delivery in line with the vision of the country leadership.

Designed to bridge the gap between high-fidelity medical response and tactical security, Prometheus Protect combines concierge medicine, 24/7 consultant-led personal medical support, deployed operational medics, real time security intelligence, journey management, protective services, global medical and security evacuation capabilities within an integrated platform that is elite, discreet and secure.

This exclusive membership program is designed to provide High-Net-Worth Individuals (HNWIs), corporate executives, and family offices with an unprecedented fusion of elite security protocols and concierge-level medical support, anywhere in the world with round-the-clock access to dedicated operations centre, global medical evacuation, international emergency physicians and discreet executive security protection.

**Dr Rohil Raghavan, CEO of Response Plus Holding PJSC,** said: "The launch of Prometheus Protect marks a pivotal evolution for Response Plus Holding as a group. Building on our strong reputation in the pre-hospital domain, we are now moving towards providing a holistic ecosystem that extends the first-of-its-kind medical and security platform. In high-stakes environments, medical care and security cannot exist in silos and through Prometheus Protect, we ensure that the protection is seamless, sophisticated, and absolute."

**Steven Wines, CEO of Prometheus Medical International,** added: "Prometheus has long provided exclusive and discrete medical concierge, protection and medical case management services to global leaders. Prometheus Protect aligns medical and security concierge support to give peace of mind in a 360-degree shield which covers you wherever you are in the world. Our mission is to provide absolute peace of mind that comes from knowing the world's leading experts in emergency medicine and protection are just a call away."

The key features of Prometheus Protect include:

- **Global Medical Concierge:** 24/7 global reach back telephone consultations and medical concierge support with direct access to specialized medical consultants and international medical referrals.
- **Emergency Response & Evacuation:** Rapid-response medical evacuation (Medevac) and repatriation services using RPM's own ICU-equipped aircraft.

- **Elite Security Integration:** Advanced security intelligence, real-time threat monitoring, secure transport, and executive protection tailored to the member's itinerary.
- **Bespoke support:** On-ground security coordination and operational support worldwide with medical and security risk assessments.
- **Crisis Management:** Dedicated 24/7 emergency security experts providing travel risk mitigation and contingency planning.
- **Clinical Governance:** Bespoke emergency protocols for families and corporate teams.

The launch confirms Prometheus Medical International's position as a premier provider of medical risk management in the UAE and globally, bridging the gap between frontline medical and trauma experience and the high-standard, personalized requirements and advanced security protocols of HNWIs, corporate executives, and family offices

The launch comes close on the heels of the unveiling of ICATT RESPONSE PLUS – the joint venture between RPM and ICATT, offering global 'bed-to-bed' medical evacuation capabilities from Abu Dhabi. ICATT RESPONSE PLUS offers world-class medical evacuation with UAE's first dedicated long-range Challenger 605 Air Ambulance, purpose-built for aeromedical evacuations and complex critical care missions.

Reinforcing Abu Dhabi's position as a regional hub for advanced healthcare logistics, the first-of-its-kind array of services reflects UAE's advancement in medical innovation, emergency preparedness, and global operational capabilities, while introducing a new level of rapid-response infrastructure designed to support UAE nationals, residents, and international members anywhere in the world.
