

Alef Education Nears Historic Milestone of Two Million Registered Students Worldwide

Abu Dhabi, 28 July 2026: Alef Education is set to reach two million registered students across 19,000 schools globally - a significant milestone that highlights the company's evolution from a homegrown UAE innovator into a trusted international education technology partner. The achievement reflects growing global demand for AI-powered, personalised learning solutions that enable educators to improve student outcomes on a scale.

Since its establishment in 2016, Alef Education has entered strategic partnerships with governments, educational institutes, and educators to deliver engaging, technology-enabled learning experiences. Its AI-powered ecosystem combines adaptive learning technologies, curriculum-aligned content, and real-time insights to personalise learning journeys while equipping educators with actionable data to better support every student's progress.

Commenting on the milestone, Geoffrey Alphonso, Chief Executive Officer of Alef Education, said: "Reaching two million registered students globally is a defining milestone for Alef Education and a testament to the trust that governments, educators, and institutions have placed in our vision. What began as a UAE success story has evolved into a global platform helping education systems deliver more personalised, equitable, and impactful learning experiences at scale. At Alef Education, we remain committed to responsible innovation, ensuring that AI enhances human potential and creates more inclusive, resilient, and future-ready education systems".

At the heart of Alef Education's digital ecosystem is the Alef Platform, which leverages artificial intelligence, adaptive learning, and real-time analytics to deliver personalised learning pathways while helping educators identify learning gaps and tailor instruction. The company's growing portfolio also includes Alef Pathways, Alef AI Tutor, Abjadiyat, and Arabits.

Alef Education has also expanded access to learning experiences that build essential competencies in areas, including financial literacy, safety and emergency preparedness, and other practical life skills through initiatives. Additionally, the company equips educators with the essential skills needed to integrate technology into their classrooms through specialised AI Training Programs. Similarly, Alef Academy offers self-paced courses and resources that focus on effective implementation strategies and best practices for digital learning.

As education systems increasingly seek scalable, data-driven solutions, Alef Education continues to expand its global footprint through strategic partnerships, continuous product innovation, and responsible AI adoption.
