Commentary

Menzies Aviation: Top line momentum

- Top-Line Expansion driven by robust growth post-G2 acquisition, underlying yield improvements, and proactive mitigation strategies that insulated the platform from the Kuwait exit and Middle East conflict disruptions.

Tristar : Revenue acceleration and enhanced EBIT Quality.

- Top line increased driven primarily by the Fuel segment, led by commercial fuel and partially offset by lower Maritime revenue following the planned resizing of the fleet.

ALP : Scaled Growth and Operating Leverage

- Realizing structural operating leverage as stabilized assets come online while deepening capital deployment in KSA to capture demand and sustain market leadership.
