Abu Dhabi National Investment and Development and Abu Dhabi Agriculture Club Sign MoU to Enhance Cooperation in Agriculture and Food Security and Explore Opportunities to Develop Agricultural Communities and Projects

Abu Dhabi, United Arab Emirates – 6 October 2026

Marking the opening day of Global Food Week, Abu Dhabi National Investment and Development PJSC (ADID) announced the signing of a Memorandum of Understanding (MoU) with the Abu Dhabi Agriculture Club, aimed at strengthening cooperation and exploring opportunities and initiatives related to the agricultural sector and food security, as well as assessing opportunities for the future development of integrated and sustainable agricultural communities and projects.

The MoU establishes a general framework for cooperation and coordination between the two parties, enabling the exchange of information and expertise and the assessment of investment, development and commercial opportunities related to the agricultural sector. It also provides for exploring the potential development of integrated agricultural communities, sites and projects, as well as opportunities to market agricultural products produced by the Club's members, subject to the applicable requirements and conditions.

The areas of cooperation under consideration also include exploring the possibility of providing or allocating a site for the Abu Dhabi Agriculture Club's headquarters and a model farm, organizing relevant meetings, workshops and events, and preparing preliminary studies and concepts for initiatives and projects that the parties may agree to explore.

As part of their future cooperation, the parties intend to explore a promotional initiative aimed, in principle, at highlighting opportunities associated with up to two hundred (200) farms within future agricultural communities or projects. This number remains an indicative and promotional target and will be subject to the outcome of relevant studies, approvals and subsequent agreements among the concerned parties.

The MoU reflects the parties' shared interest in exploring areas of cooperation that may contribute to supporting the agricultural sector, enhancing food security, and encouraging agricultural and development initiatives, with a focus on assessing scalable models and projects that are aligned with the relevant regulatory, economic and development requirements in the United Arab Emirates.

Abu Dhabi National Investment and Development PJSC emphasized that the signing of the MoU reflects its commitment to evaluating promising investment and development opportunities and exploring areas of cooperation that can create long-term added value. The Company further noted that any future investment, contractual commitments or decisions will remain subject to detailed studies, assessments and the relevant approvals.
