ADX welcomes listing of US equities ETF

- *GQG US Equity ETF cross-listing broadens access for UAE and regional investors to leading US equities*
- *ADX's 27th ETF reinforces Abu Dhabi's position as the region's leading hub for ETFs and global investment opportunities*

Abu Dhabi, United Arab Emirates; 19 November 2026: The Abu Dhabi Securities Exchange (ADX) today celebrated the official cross-listing of the GQG US Equity ETF (GQGU) with a market bell-ringing ceremony at its headquarters in Abu Dhabi. The listing marks the 27th ETF to trade on ADX, further cementing its standing as the region's largest and most active ETF marketplace while broadening local and regional access to international investment opportunities.

The GQG US Equity ETF's initial offering period (IOP), which ran from 9 to 13 November 2026, attracted investors from nearly 60 countries, including India, Egypt, and Pakistan, who subscribed through ADX's website, demonstrating strong international demand.

Managed by GQG Partners, the fund focuses on high-quality, attractively priced companies with sustainable competitive advantages, durable earnings, and long-term compounding potential, while actively managing downside risk. As of 16 November 2026, the GQG US Equity ETF held approximately US$407 million in assets under management (AUM), with top holdings including Apple, Microsoft, Amazon.com, Alphabet, and Nvidia.

Abdulla Salem Alnuaimi, Group Chief Executive Officer of the Abu Dhabi Securities Exchange (ADX) Group, said: "We are pleased to welcome GQG Partners to ADX's marketplace. GQG's decision to list its first ETF listing outside the United States on the ADX reinforces Abu Dhabi's position as a trusted global financial center and ADX as a preferred platform for international issuers. This landmark listing of GQG US Equity ETF broadens investor choice, supports portfolio diversification, and brings ADX's total listed ETF offering to 27. We believe this new listing will complement Abu Dhabi's thriving capital market ecosystem and give regional investors an efficient gateway to leading US equities alongside local and regional securities."

Rajiv Jain, Chairman and Chief Investment Officer at GQG, said: "We are excited to cross-list GQGU on ADX, expanding access to our US equity strategy for investors in the UAE and across the broader region. Abu Dhabi has become an important global financial center and is a long-term strategic market for GQG. Since establishing our international headquarters in Abu Dhabi in 2023, we have continued to deepen our commitment to investors and institutions throughout the region. This listing marks another important milestone in that effort."

The debut continues a period of sustained momentum for ADX's ETF platform. Earlier this month, ADX listed two South Korea-focused ETFs managed by Hanwha Asset Management, offering local and regional investors targeted exposure to South Korea's advanced manufacturing, technology, defense, and aerospace sectors.

The cross-listing of the fund, which also trades on the New York Stock Exchange, provides UAE investors and participating exchanges across the Tabadul digital exchange hub direct access to GQG Partners' US equity strategy. Launched in 2022 to facilitate seamless cross-

border trading, Tabadul currently links exchanges in the UAE, Bahrain, Oman, Jordan, Iraq, Kazakhstan, and Armenia.

About Abu Dhabi Securities Exchange (ADX)

The Abu Dhabi Securities Exchange (ADX) was established on 15 November 2000 pursuant to Local Law No. (3) of 2000, which granted the exchange legal rights with independent financial and administrative status, as well as the necessary supervisory and executive powers necessary to carry out its functions. On 17 March 2020, the ADX was converted from a public entity into a Public Joint Stock Company (PJSC) in accordance with Law No. (8) of 2020.

The ADX Group, a market infrastructure group comprising the exchange (ADX) and its post-trade ecosystem, including its wholly owned subsidiaries AD Depository and AD Clear, was established. Through its integrated and globally aligned business structure, the ADX Group supports efficient, transparent, and resilient capital markets across trading, clearing, settlement, and custody.

The Group provides an efficient and regulated marketplace for the trading of securities, including equities issued by public joint-stock companies, bonds issued by governments and corporations, exchange-traded funds (ETFs), and other financial instruments approved by the UAE Capital Market Authority.

The ADX is the second-largest exchange in the Arab region by market capitalization. Its strategy of delivering stable financial performance through diversified revenue streams is aligned with the UAE's national development agenda, "Towards the Next 50", which aims to build a sustainable, diversified, and high-value-added economy.
